HIS COMPANION MANAGED TO ESCAPE

Fred Herdlein of Lincoln Will Answer to the District Court for Promiscuously Using a Gun to the Injury of Several Persons.

HYANIS, Neb., May 10.—[Special to The Bee].—Walter Hamilton was killed Sunday some fifteen miles south of Hyannis while digging for wolves. Hamilton had dug a trench ten feet underground in order to reach the wolves, when the earth caved in on him, and when rescued life was extinct. Hamilton has a widowed mother at Hartley who did not receive the intelligence of her son's death until after his burial. Ex-County Clerk Manning had started to go into the den when the earth caved in.

HERDLEIN BOUND OVER.

Most Answer to the District Court for Shooting Several Persons.

LINCOLN, Neb., May 10.—[Special Telegram to The Bee].—Fred Herdlein, the liquor-crazed citizen of the bottoms who some weeks ago undertook to exterminate an entire neighborhood, had his preliminary hearing before Judge Waters this afternoon. He was arraigned on the charge of shooting Mrs. Minnie Miller, Mrs. John Luckhardt and Walter Luckhardt with intent to kill. Dr. Shoemaker testified that Mrs. Luckhardt had been wounded in three places, her son once and Mrs. Miller once.

Witnesses were asked to describe the shooting. The only cause for the shooting, as brought out by the evidence, was that Mrs. Luckhardt had entered a protest against the manner in which Herdlein was killing his wife. At the conclusion of the examination Judge Waters held the prisoner to the district court, fixing his bail at \$500, which was immediately furnished.

FROM THE POLICE COURT.

The case against Blaine Newell, the young fellow charged with committing an unnatural crime, was dismissed today, the prosecution declining to prosecute.

SILVER ANNIVERSARY NOTES.

The committee upon the silver anniversary was in session till 11 o'clock p. m. last night, hard at work upon the coming celebration. Made it Permanent.

GRAND ISLAND, Neb., May 10.—[Special to The Bee].—An injunction issued some time ago restraining the county clerk and county treasurer of Hall county from issuing and paying certain warrants ordered drawn by the county board for the payment of damages resulting from the opening of a new road in Washington township. One of the warrants was in favor of a member of the board. Judge Harrison made the injunction permanent yesterday, deciding that the township in which the road was opened bears the expense and not the county treasury in which the city, which pays for and opens her own streets, has a part.

COMPANY INSPECTED.

NEMASKA CITY, Neb., May 10.—[Special to The Bee].—Adjutant Leonard Vinton was in the city yesterday afternoon inspecting company C of the Nebraska National guards. He now inspects the company every four months, and yesterday was his first visit here. He was highly pleased with his inspection.

SUSPICIOUS CHARACTERS ARRESTED.

court house last night and organized the Young Men's Republican club by electing W. F. Keary, president; C. W. Hoge, vice president; Hombert Billman, secretary; and M. H. Thorp, treasurer. The club will hold regular meetings every Thursday evening.

KEARNEY WANTS THE PEN.

A Scheme on Foot to Rob Lincoln of a State Institution. KEARNEY, Neb., May 10.—[Special to The Bee].—There is a scheme on foot here to secure the removal of the state penitentiary from Lincoln to this point. It will be remembered that about six weeks ago during the severe winter season which swept over the state, a big section of the penitentiary wall fell down. The breach was at once repaired, but it is said that the workmen made the discovery that the wall, instead of being solid, was filled in the center with sand, and was liable to fall at any time. An attempt was made to hush the matter up, but it has leaked out. Recently this reached the ears of a Kearney capitalist, who was also informed that the whole wall would have to come down in a year at most, and that Lincoln people on the inside were already figuring on having the state build a new penitentiary at Kearney. At that point, which they hoped to work through the legislature at the coming session.

When the Lincoln plan became known here a movement was set on foot looking toward securing the removal of the penitentiary to the Midway city. A syndicate of capitalists was formed, and the scheme now is to offer the state a large tract of land and a liberal bonus as an inducement for the removal. The men in the deal say that if the state must have a penitentiary, it would be better to accept a big bonus than to take the money from the state funds. They think Lincoln and Kearney present a proposition should be relegated to the rear in this matter and that the western part of the state should be given a chance.

EX-TREASURER PAUL'S TRIAL.

He Must Answer the Charge of Embezzlement.

HASTINGS, Neb., May 10.—[Special to The Bee].—This morning the case of the state of Nebraska vs. ex-County Treasurer Charles H. Paul for embezzling public funds was called up before County Judge W. R. Burton for preliminary hearing. As the attorneys in the case are pretty well scattered, by consent of the court the hearing was postponed until May 20. It was suggested that the hearing be made on the 19th, but as that was circuit day the 20th was speedily substituted. The state will be represented by County Attorney Hoppen, assisted by Messrs. A. H. Hastings, Judge H. C. Gentry and J. A. Caste. Mr. Paul will be defended by W. P. McCreary. Expert Ratcliff, who has been examining the books of the county, was present and will probably give his testimony in the preliminary.

Captain A. D. Youm, who was recently pardoned by Governor Hoyt for the homicide of Myron Van Fleet, has disposed of his Hastings property and will leave for California, where he will make his future home.

At the meeting of the city council on the 10th, a committee which had been appointed at a previous meeting to investigate the management of the city waterworks reported that there had been much money expended in the last fiscal year in proportion to the water pumped than in the year previous. Further, they recommended that the council make change in the engineer and force at the pumping station. The council then heard the engineer and foreman regarding trouble which had existed, and after a long and somewhat unharmonious session adjourned without action.

Judge Dundy Gets His Court Started in Every Branch.

Judge Dundy's court opened by a very crowded court room when he ascended the bench yesterday afternoon. Inside the space reserved for the baristers Jerome B. Miller, jailer at the Douglas county jail, had his eagle eye upon a score of United States prisoners whom he has been feeding and lodging.

Some of them since January last.

After hearing several motions in civil cases Judge Dundy ordered the grand jury called, and every man drawn responded "here." After the jury had been sworn to "true answers make" his honor wanted to know how many desired to be excused, but nearly one of the citizens raised his voice.

At the opening of the night session Secretary M. L. Hildreth of Lyons made his report in which he stated that all the physicians had withdrawn from the society. Dr. B. F. Crummer of this city wanted to know if any of them were the good curd cures, and the secretary informed him that they were not. He said there had been one or two physicians who were in the society, but they had withdrawn themselves from membership.

Dr. Crummer then stated that he considered the cures the worst kind of quackery, and all society physicians ought to be denounced and expelled from the society.

After some discussion on expulsion of the physician, the matter being connected with institutes the matter, as well as the secretary's report, was referred to a committee to take proper action in the case.

Dr. Crummer, chairman of a special committee on medical legislation, read a report on quackery and the present state laws regarding specialties, Chinese physicians and the prohibition of the use of the profession. He recommended that the society employ a committee on an appeal test case of the State Medical Association, and that a physician and appropriate \$100 as a retainer, and that an additional \$100 be spent if necessary to prosecute the case. The appropriation was made, and the meeting adjourned.

"It is the use of the Carlsbad Waters which has improved me, more than any trip abroad. I have gained in flesh and strength since I use the Carlsbad Waters. I use them for persons who use them for reducing flesh, because the Waters remove all unhealthy issues and superabundance of fat, but they also build up firm and solid flesh, which is a sign of perfect health. I also use the Carlsbad Seltzer early in the morning, with a glass full of the Water. It increases the laxative action of the same. If you ever suffer from chronic catarrh of the stomach, biliousness, gas or rheumatism, I advise you to use the Carlsbad Waters. The 'genuine' have the signature of 'F. MORE THAN ALL THE WORLD.

America's Magnificent Contribution to the Russian Relief Fund.

Mr. B. F. Tillinghast, editor of the Democratic-Gazette of Davenport, Ia., was in the city yesterday, enroute to the democratic convention, which meets at Council Bluffs today. Mr. Tillinghast was secretary of the Iowa Russian Relief association and had just returned from New York, where he superintended the loading of the Iowa contribution on the Tynhead.

"It is the greatest work of charity ever undertaken in the United States," said the Iowa editor earnestly. "Three shipments of supplies have recently been dispatched to Russia and a fourth is being loaded. The cash value of America's donations is estimated at \$1,000,000 and Baron Struve, the Russian minister at Washington, has stated that it was more than all the world beside had contributed. A particularly important point is the fact that everything has been contributed, including transportation, which graphing, storage, insurance, broker's commissions and superintendence, so that the value of America's gift has been practically quadrupled."

"Iowans have good reason for pride in their part in the noble work. On December 22 Governor Jones issued his proclamation inviting contributions, and on April 1, 230 cars of corn, enough to make ten trains, were on their way to New York. The Tynhead was chartered for \$13,300, but the brokers donated their commission, which reduced the charge to about \$12,000. Afterwards the Iowa Relief Association, under the leadership of their board, asked as a favor that they be permitted to pay the ocean freight. The insurance companies donated the premiums for risks accruing to the loading was finished on Monday of last week, when the Tynhead had every pound that it could carry loaded and ready to carry. The cargo comprised 125,000 bushels of Iowa corn, two or three cars of Nebraska corn meal and a large assortment of supplies, such as canned goods, rice, sugar and hospital stores, the whole weighing 7,000,000 pounds. The Nebraska corn meal was a lot of the finest ground at Agron, O., and did not reach the sea until it was shipped with the rest of the Nebraska contribution on the Missouri."

The departure of the Tynhead was the most inspiring sight I ever witnessed. The vessel was decorated with flags and bunting from bow to rudder. From the highest masthead floats in line to the harbor, the ladies of Washington, and from the second highest mast fluttered the Russian flag. When the pilot boat had taken the ship out to the river all the steam vessels in the harbor joined in a grand chorus of whistling, and the demonstration was continued for half a mile down the river. The Tynhead will be launched at Riga, where trains will be in waiting to transport it to the river Volga. A portion of the supplies will be sent down the river in flat boats and the remainder will be distributed by wagon."
